SYLLABUS: DANCE 3401, ONLINE
DANCE IN POPULAR CULTURE: EMBODYING AMERICAN IDENTITIES, IDEAS, AND CULTURES
SPRING 2017

Course overview

Popular culture consists of ideas, practices, and objects that have broad appeal across a population. Focused on three sites where we can routinely find popular dance: the stage, the club, and the screen, this course covers dances that have captured the attention and imagination of the American public over the last century. Along with a historical overview of each of the various styles and sites, from ballroom to Hip-Hop, Broadway to YouTube, and television to video games, we will look at who dances, how they move, and how movement constructs identity. Identification of movement vocabulary and choreographic staging will lead to discussion of how popular dance reflects and influences our perceptions of gender, age, ethnicity, and economic status. Overarching themes include the role of media and music in the development and dissemination of dance and issues of innovation and appropriation. This course fills the Arts and Humanities “Cultures and Ideas” and “Social Diversity in the United States” requirements.

Course goals and learning outcomes

The goals of the course are to:

- Situate American popular dances in relation to historical events and social change.
- Apply the concepts of cultural appropriation and aesthetic innovation to American popular dance forms.
- Demonstrate the roles popular music and popular media play in relation to the dissemination of popular dance styles.
- Improve literacy in American popular dance.
- Culture and Ideas: Students evaluate significant cultural phenomena and ideas in order to develop capacities for aesthetic and historical response and judgment; and interpretation and evaluation.
- Social Diversity in the United States: students understand the pluralistic nature of institutions, society, and culture in the United States and across the world in order to become educated, productive, and principled citizens.
At the successful completion of this course students will be able to:

- Identify key dance artists, styles, and steps, and describe their importance for the development of American popular dance.
- Describe and explain the impact of historical events, social circumstances, and political landscapes on the development of American popular dance practices.
- Explain how dances reflect or challenge social and cultural ideals.
- Integrate tools for watching, describing, and assessing dance into written responses.

Cultures and Ideas Expected Learning Outcomes:

GOALS:
- Students evaluate significant cultural phenomena and ideas in order to develop capacities for aesthetic and historical response and judgment; and interpretation and evaluation.

EXPECTED LEARNING OUTCOMES:
- Students analyze and interpret major forms of human thought, culture, and expression.
- Students evaluate how ideas influence the character of human beliefs, the perception of reality, and the norms which guide human behavior.

This course works toward these outcomes through close readings of specific dance works and dance practices as cultural representations that reflect and contribute to individual subjectivities, group identities, historico-political interactions, and societal assumptions and beliefs in the United States.

Social Diversity in the United States Expected Learning Outcomes:

GOALS:
- Students understand the pluralistic nature of institutions, society, and culture in the United States and across the world in order to become educated, productive, and principled citizens.

EXPECTED LEARNING OUTCOMES:
- Students describe and evaluate the roles of such categories as race, gender and sexuality, disability, class, ethnicity, and religion in the pluralistic institutions and cultures of the United States.
- Students recognize the role of social diversity in shaping their own attitudes and values regarding appreciation, tolerance, and equality of others.

This course reveals ways Americans embody the movement practices of various segments of our many-faceted society when practicing and viewing popular and social dance. Along with examining representations and constructions of identity through dance in popular culture, this course will draw students’ attention to their own experience of and attitudes toward diverse dance practices and heritages.

Faculty feedback and response time
I am providing the following list to give you an idea of your TA’s intended availability throughout the course. (Remember that you can call 614-688-HELP at any time if you have a technical problem.)

Grading and feedback
For weekly assignments such as discussion board posts, you can generally expect feedback within 3-5 days. For visual media analyses, please allow 10-12 days for feedback. Quizzes will be graded automatically and results (but not responses) will be available immediately after completion.

E-mail
Your TA and I will reply to e-mails within 24 hours on school days.

Discussion board
We will check and reply to posts in the discussion boards throughout the week. If questions about assignments, exams, etc. arise in the Questions?? forum, the instructor will address these in both video lectures and written announcements.

Attendance, participation, and discussions
Student participation requirements
Because this is a distance-education course, your attendance is based on your online activity and participation. The following is a summary of everyone's expected participation:

- **Logging in: AT LEAST TWICE PER WEEK**
  Be sure you are logging in to the course in Carmen each week, including weeks with holidays or weeks with minimal online course activity. (During most weeks you will probably log in many times.) If you have a situation that might cause you to miss an entire week of class, discuss it with your TA and the instructor as soon as possible.

- **Office hours: OPTIONAL**
  Online and in person office hours are optional. If you need to meet with your instructor or TA in person, please email them at the beginning of the week to make an appointment.

- **Participating in discussion forums: 3 POSTS PER WEEK MINIMUM**
  Each week, you will respond to questions posed by the instructor in the discussion board. In addition, each week you can expect to post a minimum of two times as part of our substantive class discussion on the week's topics. One of these, if possible, will be a response to one of your peers' questions or comments on your original post. “Substantive” posts engage with other students’ comments, pose follow up questions, and contribute to further discussion and conversation. Scoring on participation is cumulative for each week. More posts than required and posts that generate discussion will contribute to a higher score.
Discussion and communication guidelines

The following are the expectations for how we should communicate as a class. Above all, please remember to be respectful and thoughtful.

- **Writing style**: While there is no need to participate in class discussions as if you were writing a research paper, you should remember to write using good grammar, spelling, and punctuation.

- **Tone and civility**: Let's maintain a supportive learning community where everyone feels safe and where people can disagree amicably. Remember that sarcasm doesn't always come across online.

- **Citing your sources**: When we have academic discussions, please cite your sources to back up what you say. (For course materials, list the section title or article and page number. For online sources, include a link.)

- **Backing up your work**: Consider composing your discussion board posts in a word processor, where you can check your spelling and save your work, and then copying them into the Carmen discussion. (I highly recommend this!)

Other course policies

**Academic integrity policy**

The Ohio State University’s *Code of Student Conduct* (Section 3335-23-04) defines academic misconduct as: “Any activity that tends to compromise the academic integrity of the University, or subvert the educational process.” Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the University’s *Code of Student Conduct* is never considered an “excuse” for academic misconduct, so I recommend that you review the *Code of Student Conduct* and, specifically, the sections dealing with academic misconduct.

*If I suspect that a student has committed academic misconduct in this course, I am obligated by University Rules to report my suspicions to the Committee on Academic Misconduct.* If COAM determines that you have violated the University’s *Code of Student Conduct* (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the University.

If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact me.

Other sources of information on academic misconduct (integrity) to which you can refer include:

Accommodations for accessibility

Requesting accommodations
The University strives to make all learning experiences as accessible as possible. If you anticipate or experience academic barriers based on your disability (including mental health, chronic or temporary medical conditions), please let me know immediately so that we can privately discuss options. You are also welcome to register with Student Life Disability Services to establish reasonable accommodations. After registration, make arrangements with me as soon as possible to discuss your accommodations so that they may be implemented in a timely fashion.

Assignments

The following are the main assignments for the class. They are all described in more detail in the content portion of the course. All are due by 11:59 pm on the date listed below.

- **Quizzes**: Each unit concludes with a quiz, taken online.
- **Discussion Posts and Responses**: One original post per week; 2 responses, including one to a peer's response on your original post if possible. *Note: I suggest you compose and save all of your posts in a word processing program such as Microsoft Word so you can utilize features such as spell check and word count. Then you can copy-paste from the document into the discussion forum on Carmen.
- **Film Viewings and Visual Media Analyses**: Each unit includes a viewing of a full-length film (except Unit 1). Every student is expected to watch the assigned film for each unit. You will choose three (3) of the films throughout the semester to write about in a 1000-1250 word Visual Media Analysis essay.
- **Oral History**: In unit 1, you will interview a family member or friend of a different generation about their experiences dancing growing up and write a 500-word narrative essay describing these experiences and comparing them to your own. You will read the oral histories posted by your group mates and you will respond to at least two of them.
- **Final Project**: Throughout the course, you will work in a small group to create a proposal for a theme party based on an assigned decade. (TAs will assign small groups of 3-4 students at the start of Unit 2.) Beginning in unit 2, you will complete small assignments toward learning the technology and compiling information for the proposal. The final proposal is due at the end of the semester.
